ENGAGED IN BATTLE

Filipinos Made an Attack on American Troops But Were Repulsed.

TWENTY MEN KILLED

And About 125 Wounded on American Side---Filipino Losses Heavy.

Manilla, Feb. 6.-The long-expected battle between the Americans and th Filipinos has come at last.

The clash came at \$:40 Saturday even ing, when three daring Fillpinos darted past the Nebraska regiments' pickets at Santa Mesa, but retired when chailenged. They repeated the experiment, without drawing the sentries' fire, but the third time Corporal Greely challenged the Filipinos and then fired, killing one of them and wounding another. Almost immediately afterward the Filipinos' line, from Calvocan to Santa Mesa, began a fusillade that was in-

effectual. The Nebraska, Montana and North Dakota outposts repiled vigorously and held their ground until reinforcements

The Filipinos in the meantime concentrated at three points, Caivocan Gabalangin and Santa Mesa. At about 1 o'clock the Filipinos opened a hot fire from all three places simultaneously This was supplemented by the fire c two siege guns at Balik-Balik, and by advancing their skirmlshers at Paco and

The Americans responded with a lerrific fire, but owing to the darkness they Utah light infantry finally succeeded in guns, with ammunition during last silencing the native battery. The Third artillery also did good work on the extreme left. The engagement lasted over

The United States cruiser Charleston and the gunboat Concord, stationed off Claims the Insurgents Captured Malabona, opened fire from their secondary batteries on the Filipinos' position at Calvocan, and kept it up vigorously

At 2:45 there was another fusillade along the entire line, and the United States monitor Monadnock opened fire on the enemy from off Malate. With daylight the Americans advanced. The California and Washington regiments made a splendid charge and drove the Filipinos from the village

of Paco and Santa Mesa. The Nebraska regiment also distin guished itself, capturing several prisoners and one howitzer, and a very strong position at the reservoir, which is connected with the waterworks. The Kansas and Dakota regiments compelled the enemy's right flank to retire

There was intermittent firing at various points all day long. The losses | the Spanish prisoners still in the hands of the Fillpinos cannot be estimated at the insurgents. present, but they are known to be con-

The American losses are estimated at twenty men killed and 125 wounded. Filipinos Evidently Conclude That

Americans Mean Business. Manilla, Feb. 6, 9 a. m. -The Filipinos have apparently reached the conclusion that the Americans mean business, not that the barriers are removed, as there were no further hostilities last night and no attempt was made to recover the lost ground. It is possible, however, that they are following the tactics they employed against the Spaniards, and will merely lie off a few days to recuper ate their forces before returning to the

It is impossible to ascertain as yet how the news has been received at Malolos the seat of the insurgent governmen! but the Filipinos in Manilla express the opinion that the movement for inde pendence has received its death blow and that annexation will soon be weicomed generally.

ON THE CHICAGO BOARD. Thought That It is About Time For

an Advance. Chicago, Feb. 6.-Very favorable Argentina crop reports today, together with a sharp decline at Liverpool, started wheat Milwaukee weak. May opened 1403ac lower at 7134672c St. Louis . and as there seemed to be a pretty general disposition to cover shorts on the presumption that after an Se break with presumption that after an 8e break with practically no reaction, some immediate rally was due. May advanced to 724c. Chicago received \$4 cars of which only 4 graded contract. Minneapolis and Duluth got \$21 carloads, as compared with \$60 for the corresponding day a year ago. World's shipments last week, including Australia, amounted to 9.250,000 bus, compared with 7,150,000 bus the week previous. The increase was chiefly from America and Argentine, while Russian and Indian shipments show a marked decrease. There and Argentine, while Russian and Indian shipments show a marked decrease. There was considerable selling from the outside of May around 72% 1/40, but indications of a heavy export business at the Atlantic coast during the day caused sufficient demand to hold the price at 72%. The visible supply increased 401,000 bus. When this became public May declined quickly to 71% c. On the decline a fair export business was reported at the scaporard however, and this started shorts covering. The market became active in covering. The market became active in the mual dealings and May rose steadily to 72 sand, c, or a gain of 4c for the day.

For over a week the wheat market has been weak and nervous, the result of liquidation by long speculators. Of course the government report was a showing a heavy increase in the winter wheat area had much to do with changing sentiment. The commercial editor of the Chleago Chronicle says that the shrinkage was based almost entirely on the fact that enormous export takings. far exceeding primary Western marketings, and which ordinarily would be strongly bullish, have exerted not the least particle of influence on values, even though the exports have exceeded those of a year ago, when they were termed phenomenal.

"Last week's export clearings," he says, "were 6,585,000 bushels of wheat and flour, while for the last seven weeks they have reached the enormous total their own." of 41,097,000 bushels. For the same seven weeks a year ago they were 31,-322,000 bushels, showing a gain this year for the seven weeks of 9,775,000 bushels, or almost 33 per cent. These are remarkable exports, and all the more so when we recall that all Europe was credited with exceptionally good crops In 1898, whereas in 1897 they were relatively poor, and, besides, owing to the practical absorption of old reserves, Europe was then naturally quite dependent, much more so than ordinary, last, as per the Bradstreet's return, have exceeded by some 600,000 bushels those for the corresponding period in by the statement that America has the pressive, because the most acute feature Pictures of growing spring and farms and wheat, and therefore the excessive exports only tend to counter-balance what ports only tend to counter-balance what ports only tend to counter-balance what rule, almost without exception. General Counsel Bunn of Northern Pacific Talks on Recent Decision.

SETTLERS ARE SAFE

They Cannot Be Deprived of Their Lands-Law Covers That.

while this decision would entitle the road to a great deal of land, it would not deprive settlers upon and applicants for the land which had been thrown open of their possession. The which permits the secretary of the interior to settle with the railroad company in such a case as this. The method is to give other lands in lieu of those for which application may have been made by innocent parties. The secretary has not done this yet because to do so would be an admission that the railroad company is entitled to the land while the department holds that it is not. The article was based appetite, nervousness and a general on information given by one of the best played out, languid feeling. known land attorneys in Duluth. A day or two following the News Tribune published a long article to the effect that "if Judge Lochren's decision is sustained there are hundreds of settlers in the territory affected that will lose their lands." A dispatch embodying this view was sent to papers in other cities. Saturday at St. Paul General Counsel C. W. Bunn of the Northern Pacific road was interviewed and he admits that the settlers cannot

"The article," he said, "is incorrect and quite misleading in many respects. First, the statement is made that the case involves 1,000,000 acres of land and peared. inferentially the rights of settlers to the 1,000,000 acres. The fact is that the case involves theoretically about 630,000 acres of land, but in point of fact it involves no land situated in Wisconsin and only about 60,000 acres of land situated mostly in St. Louis county, Minn., lying north and east of Duluth. Therefore, about 60,000 acres, instead of 1,000,000 acres, is all the land which the case involves, and but little of this is claimed by settlers. As to the balance of the 630,000 acres, if the company succeeds it would have a right to select this land from the free land of the government unclaimed by settlers

in any state along its line. "Second, it can hardly be true, as stated in this article, that many competent attorneys think the case will be reversed in the supreme court of the United States, for, so far as I know. the attorneys who have studied the question all, or most of them, think the decision was correct and will be at-

"The fact is that the Northern Pacific does terminate at Ashland and does not terminate at Duluth. It has already been regarded and treated by the government of the United States as terminating at Ashland until in 1895 or 1896 Secretary Hoke Smith rendered an that the terminus was at Duluth. The supreme court of Wisconsin and the circuit court of the United States in Minnesota (the only courts which have considered the question) have decided that the ruling of the secretary was erroneous, and there were several important facts which the secretary did not have before him. "So far as the rights of the settlers are concerned, they are not in jeopardy and are not involved in the case. It is congress passed an act in June, 1898, which provides that where such controversies do exist the settler has an option to surrender the land to the com-

I see there have been some good methods advanced, but a few more would do no harm and this is an opportune time to suggest to the new regime which the people of Duluth will elect to office in a short time. What I would suggest is this, that the city work should not be given to contractors. You ask, why? Well, when the city has work to do, the city fathers advertise for bids. Those contractors figure it so low that they are not able to pay—at least if they are able they are not willing to pay—living wages to men to do the work; consequently when they want, say 100 men, they advertise for two or three hundred. CHRISTIAN IN POLITICS.

Dr. Long Discusses His Duty In Municipal Affairs.

"The Christian in Municipal Politics" was the subject discussed by Rev. Dr. Long at the First Methodist church last evening in his prelude to his sermon. The problem of municipal government is, he said, one of the first importance in American politics, and as cities increase more attention to it is necessary. Now almost one-third of the people of this country live in cities: Ali close observers are stilled with dark forebodings as to the time "The conspicuous dangers that confront the cities are the saloon money in politics, the political boss, and the ward heeler. I think the remedy comes in both cases largely from two sources—the puble school and the church. Many goo people ask the question, 'Can a man be a Christian and be in politics?' It would be etter, 'Can a man be a Christian and not e interested in polities?' I belleve, after all, that the greatest danger that threatens us, even greater than those I have mentioned, is the apathy of Christian people and the indifference of property own-ers as to who hold office and levy taxes
"As Christian men we have no right to allow our city to become corrupt if we can help it, and if the posities of a city become debauched we are to make every ossible endeavor to redeem it. We shou register, attend the primaries, and vot and make it our business to see that the best men possible are nominated for municipal officers. Good men will not keep out of polities because of their goodness. out of polities because of their goodness. They may keep out on account of their indifference, but a man's goodness nevel interferes with his doing nis duty by his state of his city. I believe the preacher should lift up a standard of pure polities, and his people on registration and election days should, with him, practice his preaching."

It is singular that at the time of an election every candidate is in favor of municipal ownership, but no sooner—a great many of them at least—have entered on the discharge of their duties to the people and while they talk municipal ownership they vote the other way. Therefore I would caution the people to be careful to whom they give their support. dred dollars nor more than three hundred dollars for each offense, and in default thereof in the past are again up for election, before you give them your support you should thoroughly acquaint yourselves with their actions in the past, if they have faithfully carried out their promises they made to you it is to your interest to support them. THE MAYOR'S VIEWS

Facts Regarding City Affairs For the Consideration of the Voters.

To the Voters of the City of Duluth: The present election has been one of the juletest known in the history of the city but it is not less important than previous elections. Questions of great importance will come before the common council durng the next two years and it depends on he voters whether these questions shall settled in the interest of the whole The water question has at last found a appy solution although socalied friends f municipal ownership are continually rying to belittle the settlement of this mportant question to the people, claiming that water rates have not been re-duced which no doubt is true. Neverthe-less the benefit of having pure and wholesome water can not be estimated in dol-ars and cents. The construction of the

o-called supplementary system necess to \$300,000, figuring the interest that the city had to pay on the bonds during the time of construction and pure and wholesome water could not be obtained in any other way. The water and light plant is bound pe of lumense benefit to the people. The carning capacity will increase from time to time where the mains are now focate without increasing the bonded indebted ess. But there are other questions secondary in importance only to the water and light question and one of these au tions confronts us at the present namely the telephone question. franchise of the present company which was obtained by a special act of the leg that same body will terminate nex Hennessy presented one asking ac- month. Under ordinary circumstances tion against the attempts to prevail on would be presumed that the compan would cease to operate unless a new fram

Hencefor giving telegraph and telephone compani the right to use all highways and streets of the cities declaring them postal roads. A resolution was passed by the common ouncil requesting our senators and rep sentatives to Introduce an amendme to said law excepting telephones from operating in any city until they obtained the Minnesota building at the Omaha corporate interest that will oppose it, so it seems that this is no longer a government of the people but a government by corporations and for corporations.

Now what can the people do in order to protect their interests under these circumstances? There are only two solutions of this problem—either to great franchise to another company or to build a telephone system themselves and turnish 'phones to themselves at actual cost. Municipal ownership of all public utilities has come to stay and cities that will avail themselves of the benefis the quickest, will have an advantage over those cities where public utilities are furnished by corporations.

tie us hand and foot and deliver us over to the present corporation or compel us to accept the bid that is now considered by the committee of the common council.

I will admit that the bid now under consideration to build a metallic system with lon distance telephones modern and up to date at the rate of \$20 for residences and \$35 the first year for business and thereafter \$20 and \$30 per year is a reasonable proposition. It also provides that the city can purchase the plant at any time after the expiration of tive years at actual cost with 10 per cent added.

Sixth Dividend For Creditors of Marine National Bank of Duluth.

GREEN TIMBER CUT

Facts Reported to Land Office Regarding Stealing and Names Given.

FROM THE HERALD WASHINGTON BUREAU. Washington, Feb. 6.-(Special to The Herald.)-Comptroller of the Currency Dawes today declared a sixth dividend of 10 per cent in favor of the creditors of the Marine National bank of Duluth, making in all 60 per cent on claims

amounting to \$201.281.

Information has been received that serious trouble must be expected at the break among the Indians if their rights are not respected. Charges have been filed time and time again in the land office here, but no action has been taken. The latest report on the condition of affairs at Leech Lake was received today from a government officlal. He cites facts that are both defithe names of those people who are violating the terms of their contracts. The cause of all the complaints, this report says, is due to the greed of the contractors. The dead and down timber has been almost wholly disposed of ber has been almost wholly disposed of and after this season there will be but little work of this nature at the reservation. The contractors are now making the best of the time allowed them by cutting down the green timber.. The Indians naturally object to such spoliation, but their complaints have been heretofore unheeded. The disregard of their rights has become so exasperating, says this report, that they are these murmurings are the signs of more serious trouble. Mr. J. T. It was so bad that I could hardly get around, much less stoop, and, as a bricklayer when at work is almost constantly in a stooped position, I was unable to work. Seeing Doan's Kidney Pills advertised, 1 thought I would try them, for plasters and other remedies had failed to give me any relief. I got a box at the Duluth Drug Co., and I began to use the remedy. Candidates for Office Putting Finishing Touches on Their Campaign.

MATTERS ARE MIXED

Few Elections Have Seen the Aldermanic Contests In Such Doubt.

The candidates and their friends were making the last grand effort, the home stretch burst, today, the closing day of as close and interesting a municipal campaign as has occurred in years. There, perhaps, has never been a campaign in which the result has been as much in doubt at the finish as this. In no ward is 'there a "lead pipe cinch" claimed for any candidate by his most enthusiastic supporters, and neither side is making any confident predictions as to the result of the comptrollership contest. The claims of Comptroller Lovett's friends are supported by the most convincing showing and many of the less enthusiastic among the Republicans are conceding their soundness and acknowledging the conviction that Mr. Lovett will be elected, but they stoutly maintain that his majority will be small. The feeling among Mr. Loyett's friends may be fairly indicated by the answer one of them made to the assertion that his majority would not be large. "Well," was the reply, "a miss is as good as a mile." A close friend of Comptroller Lovett aid that the article in the Sunday News Tribune denouncing the alleged story that C. E. Richardson and Capt. C. C. Teare were to have places in the comptroller's office, in the event of the election of Mr. McCormick, as a campaign lie sent out by the comptroller's friends to injure his opponent, was the first knowledge that he or his friends had that such a rumor was out. "It is singular that such a report seems to have been known only to Mr. McCormick's friends until it appeared in the News Tribune," said this gentleman. "and still more singular that the managers of his campaign should be so alarmed at such a report. They must have a very poor opinion of Messrs. Richardson and Teare if they think that the base rumor that these gentlemen are to have clerkships under Mr. Me-Cormick, in case he is elected, is caiculated to ruin his chances of election. It looks to Mr. Lovett's friends as though this was a cheap political dodge done to try and get up sympathy for Mr. McCormick by trying to make the public believe that an unfair camgaign was being waged against him, where no such report was circulated by Mr. Lovett's friends, and if it had been why should it injure Mr. McCormick?" Although Mr. McCormick would unloubtedly have been in his place in the ranks doing his duty like his fellow oldiers on the occasion of the trouble between the colored and the white soldiers at Knoxville, Tenn., had he been there, he was, unfortunately, ill at that there, he was, unfortunately, ill at that the beginning of Chickamanga. between the colored and the white solview of this fact inspiring pen picture of Mr. McCormick dashing into the fray recently drawn by a gentleman named Saunders has, it is said, proven very embarrassing to Mr. McCormiek. Our Great Annual February Linen Sale Will Begin Tomorrow!

It is rather unnecessary for us to dwell much on the importance of this sale. House, Hotel and Restaurant Keepers have from many years' experience learned to appreciate our special annual February offerings of Table Linens and Napkins. From practical test they have learned that the wearing and laundering qualities of our Linen are of the highest standard and excel in design and variety of pattern any ordinary line of Table Linens.

Our offering this year will in every respect eclipse those of any former years; not only in the extent of the magnitude of much heavier importation, but also in the extraordinary values which large buying enabled us to secure for our trade. No good House, Hotel or Restaurant Keeper ought to miss this sale. It is without any doubt the largest offering of high-class Table Linens ever made in Duluth.

ORDERS TO GEN. OTIS

Aguinaldo to Be Informed of Ratification of the Treaty.

A VIGOROUS POLICY

If Insurgents Continue Fighting They Are to Be Mercilessly Punished.

New York, Feb. 7 .- A special from Washington says: Instructions have been sent to Maj. Gen. Otis directing him to communicate to the insurgents the information that the treaty of Paris had been ratified by the senate, and to continue his operations against them so as to promptly crush their revolt against American sovereignty.

The cruiser Boston, which left Manilla on Monday for Iloilo, ostensibly to relieve the Baltimore, carries with her instructions to Brig. Gen. Miller to at once occupy Iloilo, with or without consent of the natives there.

In adopting such a vigorous policy against the insurgents, the president i actuated by a desire to bring to an end with all dispatch the rebellious movements Aguinaldo has started against this government.

It is the confident belief of the president that as soon as Aguinaldo learns of the ratification of the treaty he will appreciate the futility of a conflict with the United States, and will be willing to make terms of surrender. It is assumed that Agoncillo, who is in Montreal, has taken measures to inform Aguinaldo of the action of the senate, but Gen. Otis will be ahead of him, and will send Information into the insurgent lines without delay. Secretary Long for the information of Rear Admiral Dewey cabled to that officer the simple message: "Treaty

forced to surrender President McKinley does not intend to show any vacillation in this matter. The policy to be put into effect is the same as that adopted immediately upon the outbreak of the war with Spain: to concentrate every effort to break down the power of the enemy in the quickest possible time.

No apprehension is felt as to the result of the attack on Iloilo. Gen. Miller has at his disposal about 3000 men, and he will be alded in his operations by the cruisers Baltimore and Boston and the gunboats Petrel and Concord. There are said to be about 10,000 natives defending the town, but they are badly armed, and it is not believed any great difficulty will be experienced in driving

While I have thought that the fight should not beniade against the treaty, I have felt that the real fight is to be made for a resolution declaring the national policy. Easiness Produced By Reported Selling By Foreigners at New York.

Duluth Board of Trade, Feb. 7 .- Wheat started out with some strength this morning. The firmness was due to an improvement in prices at Liverpool being reported and to the increased builish feeling among the traders. The market weakened on selling orders, but firmed up again on reports that the continued cold weather has damaged the winter wheat in Kansas. Later in the morning prices sagged off on a New York dispatch say-ing that foreigners were selling there. The market became stronger again, but after noon experienced a rapid decline, dropping le during the hour and closing he lower at Chicago and he lower here for the May option the May option. ON THE CHICAGO BOARD. Wheat Prices Started Better on

Several Bullish Reports. Chicago, Feb. 7.-Better cables and somewhat more bullish sentiment among traders today gave wheat a firm start. May opened 4c higher, at 72%@4c, but met some selling by commission houses for outsiders, and the price eased off to came firm on claims of severe damage to the winter wheat in Kansas and continued cold weather extending South. Shorts started to cover to secure profits and there was some disposition to buy for and there was some disposition to buy for the long account. Under this demand prices began to improve and on the way up shorts were rather active in covering to stop losses and May gradually advanced until 73½c was reached. Receipts here were 217 cars of which 21 graded contract. Minneapolis and Duluth received 401 carloads as compared with 453 for the coresponding day a year ago. New York wired that foreigners were selling there, and as the buying stackened here. May and as the buying slackened here, May sagged to 72% on selling by St. Louis

THE COITON MARKET.

Sentiment Decidedly Bullish Today
Although Expectations Reversed.

New York, Feb. 7.—Cotton operators who went home last night under the impression that Liverpool would not follow our advance of yesterday and that a reaction was in store locally today, found sentiment decidedly bullish today following a greater advance in the Liverpool market than even bull traders had expect ing a greater advance in the Liverpool market than even bull traders had expected. On the opening the market was firm, with prices 3 to 6 points higher. Realizating on an extension of the contraction of ing on an extensive scale caused a partial reaction. Wheat and stocks were closely watched by the less confident buils, who feared any serious breaks in those markets would sentimentally influence cotton.

A large business was done, especially during the first three weeks of January, consumers buying freely what was offered, and hardly being able to make contracts for anything like the quantity they wanted. The scarcity of copper occurring simutaneously with the great rush of business experienced by manufacturers generally, together with the enormous foreign demand, has produced the extraordinary market now witnessed. Even at 18 cents it is almost impossible at this writing to find producers either able or willing to sell important quantities for any delivery whatever between now and next June. In some respects the position of copper is without any parallel in the history of the metal, and one of the most striking things about the market is the fact that its present unique position rests on a perfectly legitimate and unqualifiedly sound foundation. Trade has improved to such a great extent that copper cannot be obtained quick enough or in quantities of sufficiently large volume to fully meet the urgent requirements of consumers, hence the value of copper naturally has been greatly enhanced, with no immediate prospect that they would try to lead the rising tide of prices will subside wnile conditions now existing continue to prevail. NOTICE OF MORTGAGE FORECLOSURE SALE.—
Whereas, default has been made in the conditions of a certain mortgage, made, executed and delivered by Andrew Swordling and Claudina E. Swordling, his wife, and John Schulene (or Shulene) and Christian Schulene (or Shulene), his wife, of Duluth, Minnesota, mortgagors, to Charles A. Kent, of Detroit, Michigan, mortgagee, dated the 10th day of April, one thousand eight hundred and ninety-one (1891), and recorded in the office of the register of deeds, in and for the county of St. Louis and state of Minnesota, on the 7th day of May, A. D. 1891, at the hour of four o'clock in the afternoon of said day, in Book forty-nine (49) of mortgages, on page four hundred and seventy-seven (477).

And whereas, the mortgagee has elected to declare the principal sum secured by said mortgage to be now due and payable, and there is claimed to be due and is now due on said mortgage at the date of this notice, the sum of eight hundred and twenty-five and 59-100 (\$825.59) dollars for principal and interest, and the sum of sixteen and 81-100 (\$16.81) dollars for taxes paid by the mortgagee at the date of this notice, and no proceeding or action has

principal and interest, and the sum of sixteen and \$1-100 (\$16.81) dollars for taxes paid by the mortgagee at the date of this notice, and no proceeding or action has been instituted, at law or otherwise, to recover the debt secured by said mortgage, or any part thereof.

Now therefore, notice is hereby given that by virtue of the power of sale contained in said mortgage and of the statute in such case made and provided, the said mortgage will be foreclosed by the sale of the premises therein described at public vendue, by the sheriff of the county of St. Louis and state of Minnesota, on Thursday, the 16th day of February, A. D. 1899, at 10 o'clock in the forenoon of said day, to satisfy the amount which shall then be due on said mortgage, with interest thereon and the costs and disbursements of the sale and fifty (\$50.00) dollars attorney's fees, as stipulated in said mortgage in case of foreclosure.

The premises described in said mortgage and so to be sold is the tract and parcel of land lying and being in the city of Duluth, St. Louis County, Minnesota, described as follows, to-wit:

THE WHITE MAN'S BURDEN.

BY RUDYARD KIPLING.

Send forth the best ye breed—

To serve your captives' need, To wait, in heavy harness, On fluttered folk and wild—

Your new-caught sullen peoples, Half devil and half child.

To veil the threat of terror And check the show of pride;

By open speech and simple, An hundred times made plain,

The savage wars of peace— Fill full the mouth of Famine,

And bid the sickness cease;

And when your goal is nearest (The end for others sought)

No iron rule of kings, But toil of serf and sweeper

The tale of common things.

The ports ye shall not enter.
The roads ye shall not tread,
Go, make them with your living

And mark them with your dead

It is now acknowledged by all medical men that this little valve, called the epiglottls, has effectively prevented the cure of Consumption and all deep-scated diseases of the respiratory organs for hundreds of years. It is due to its presence at the entrance of the windpipe that all liquid medicines, no matter in what form vented from entering the bronchial tubes or lungs; yet, if it were not for this little valve, liquids and food would enter these passages and cause instant strangulation and death. The epiglottis is always open to permit the passage of air to the lungs, but so constructed that the slightest contraction of the throat causes it to close over the opening to the windpipe, and prevent the least drop of moisture from entering the passages which lead to the lungs. Try to breathe and swallow at the same time and you will see how perfectly this little vaive does its work. Is it any wonder, then, that the number of persons afflicted with Catarrh, Bronehitis and Consumption have steadily increased every year, and that the medical profession should have become excited over all parts of the head, throat and lungs in the air you breathe? No other treatment or medicine has ever created such a profound interest among the doctors, and this interest is being increased hourly by the wonderful recoveries made under their own eyes. Not alone among the medical profession has this been felt but hundreds of thousands of men and women throughout the United States treatments given, and influenced by the knowledge that their money would be returned in case of failure, have tested this new remedy, been eured, and are today recommending "HYOMEI" to all their friends and acquaintances. There has been for months NO DOUBT WHATEVER in the minds of medical men as to the efficacy of "HYOMEI" in the treatment of Asthma, Coughs, Colds, Catarrh, Catarrhal Deafness, Bronchitis and Consumption, and fathers and mothers who are acquainted with the honest method used by the R. AMERICAN SUND.AY

Subject Is Discussed at Length at the Unity Club Meeting.

MR. WHITE'S VIEWS

Man Should Use His Sunday to His Own Best Advantage.

The Unity club at its adjourned meeting last night discussed "The American Sunday." In the absence of the president. W. G. Joerns presided, and Rev. Harry White was the leader of the discussion. Mr. White stated that in order to give his hearers the proper point of view from which to understand his paper he would go into a little personal matter. He did not know what other men went into the ministry for, but he did from what he considered to be very practical reason. In seeking life occupation he asked himself what he could best serve his country and he decided that the ministry was the best place. He thought that he could amusements. There is no difference board implements and amusing oneself with checkers or chess. Yet many festations of evil are cards and dancing. This does not make moral percep-

Take the Sunday of laxity, of century riding and idle amusement. Does this nake a man better? It must be confessed that a visit to places of Sunday amusement shows that the people there do not represent the highest type of humanity. Man should use his Sunday to his own best advantage, to making himself more complete and rounded. There are plenty of good reasons for going to church. A man should spend some time thinking of moral and spiritual things, and there is no better place to do this than in church. A man needs this to complete his character The question is often asked why men do not attend church more. They must admit that the church can be made an important political institution, if it is not. If it does not work that way ! can be made to do so. If your pastor does not give you what you think he should you should tell him so and tell him what you think he should give. Every man owes to himself, to his country and his God to develop himself as completely as possible, and this means a development in every direction. He should cultivate the moral, spiritual and the esthetic. The Sunday concerts that have been given by Mr. Flaaten this winter are a move in the right direction. His opportunity is great and if properly used the influence is just as great as that of any preacher. He is doing the same sort of work in a different sphere. I regret that some of the numbers I have heard were such as could not tend to the development or anyone, but his opportunity is there. There is an open question in the attitude of the state on the Sunday question, whether it has the right to legislate and whether it is to its advantage. It is difficult, by the rule I mentioned tirst, to say a thing is legal on one day and illegal on another. That is a question for the lawyers, however. A. L. Agatin spoke on the state's right to legislate on this subject. He name of the Pyramid Pile Cure. said that the question had been argued long, and it was now considered settled that the state has a right to legislate. The arguments are that the legislation is civil, not religious, and that it is merely the exercise of a necessary police regulation, to secure observance of the one day of rest that is necessary for the health of society. This argument is clearly fallacious, however. The

constitutions guarantee religious and civil liberty, yet the effect of such legislation is to punish for his belief the man who observes Saturday, taking out of his week two days. W. G. Joerns argued in favor of legislation stating that if it were not for legislation many who now rest would labor, either through business competition or the pressure of rapacious employers. He advocated, however, as against church-going, recreation and communion with nature, which he thought broadened character as truly

It Is Settled Out of Court After Apologies Are Made.

London, Feb. 7.-In the queen's bench livision of the high court of justice to day, before the lord chief justice of England, Baron Russell of Killowen, and a special jury, was heard the case of William Waldorf Astor against the Daily Mail, of this city, to recover £1000 damages for a libel which "held him up to ridicule and contempt." "It cannot be said," replied the lord chief justice, "that these personal paragraphs are not sometimes very annoying. This is the fringe of a very large question. One cannot fail to see that there is a growing fashion, perhaps copied from the press with which Mr. Astor is better acquainted than we are -(laughter)-of publishing personal paragraphs which are very annoying. "A paragraph appears in a newspaper his morning regarding myself-(laughter)-erroneously stating that I forced my carriage through the Horse Guards' passage, notwithstanding the opposition of the guards, and an American paper the other day described a painful incident in my career. It said it had been my duty, in the position of president of the divorce court, to pronounce a divorce decree between myself and my first wife. As a matter of fact I have only had one wife, she is alive now, we have never been divorced, and I am not

president of the divorce court." (Laugh-Addressing Mr. Carson the chief justice said: "I think your client ought to apologize for publishing the paragraph which has given annoyance to Mr. Astor." To this Mr. Carson replied: "I adopt

your lordship's suggestion absolutely. The proprietors of the Daily Mail will wish me to say that they had no wish to give annoyance, though some people are innoyed by these things and others are not. (Laughter.) They regret they gave annoyance to Mr. Astor and apologize for so doing." The case was then settled, the jurors being withdrawn and the proceedings

Commissioners Not Likely to **Succeed In Raising County** Attorney's Salary.

CAN BE PREVENTED

Any Taxpayer Can Stop It and Auditor Might Not Sign Warrants.

There has been considerable discussion of the story published by The Herald yesterday to the effect that County Attorney Phelps was thinking of offering his resignation. It is generally conlooked the matter up say that it will be impossible for the county board to raise state legislature, it is said. The county board does not propose to raise the county atrorney's salary directly, but the idea was to continue to employ him as the board's adviser and pay him a salary for that in addition to the amount paid him directly as salary. The members of the county board who suggested this saw no difficulty in carrying it out, but others do. "Unless the legislature takes some steps in the matter," said an attorney this morning, "I cannot see how the county is to retain Mr. Phelps if he insists on what he has said. The idea an interview in The Herald, is hardly practicable. Anyone who desired could bring a suit to stop this payment, because it would be paying the county attorney to do what he was already hired and paid to do. Thec ounty board is empowered to employ advice, but I hardly think it is empowered to pay the county attorney a bonus for performing duties. In fact, I question very much whether the county auditor would have a right to sign the warrant, even if the board passed his bill for ser-

FILES HIS ANSWER.

Houghton E. James Responds In the Germania Iron Company Suit.

The answer of Houghton E. James in the case of the Germania Iron company filed in the United States court. This answer goes into a complete history of the case. The land involved is nw1/4 of self of section 30-63-11. The history of the case briefly is that after the cancellation of a scrip location made by Orille Moreau the land was again open for entry. The decision of the general land department was rendered Feb. 18, 18, 1889, in Washington. Houghton E. James on the same day filed a homestead entry on the land, but as it was after office hours when he did the application was rejected. The next morning he renewed the application, but it was again rejected because, according to the records of the office; the land was apparently none the worse for his experience beyond a few blisters on his hands.

to the records of the office, the data was not open to entry, the scrip location still standing. The decision was received here on Feb. 22, 1889, which was a holiday. On Feb. 23, Emil Hartmann made the first filing. The case was fought through the interior department on the question as to whether the land was open to entry upon the moment the decision was rendered in Washington or when the decision Two Intoxicated dock men tried to reached the office where the land was steal a hog from in front of Toben's open to entry. Duke D'Arcos would be thoroughly acceptable to the administration not alone because of his personal ability, but on account of his alliance with an American family, the Lowerys, of Connecticut. Duchess D'Arcos, who is a daughter of Archibald Lowery, of Connecticut, was a society beile in Washington before her marriage. It is recalled that immediately after the departure of De Lome, Duke D'Arcos and his wife were visiting Washington, and the duke was afraid that he would be designated as minister, a post he did not care to accept because of the impending war. "The American members of the high commission have about made up their minds to cede a port to Canada on the Lynn canal," said F. C. Graves, president of the chamber of commerce There can be no doubt of it," he said. "I had a telegram last night from Congressman W. L. Jones of Yakima that this course would be adopted, and today several telegrams have been received that corroborate the information be-

yond any question. "During the day a number of leading business men, in addition to the chamber, have been using every effort to counteract the determination that has been arrived at, and quite a number of telegrams have been sent to Pacific senators, to the American members of the commission, Governor Brady, and in short every one calculated to lend any influence against the ceding of any territory on the Lynn canai."

Other leading business men voiced the sentiments expressed by Mr. Graves, and said in strong terms that such a proposition to cede American territory would work serious harm to the commerce of the Pacific coast.

LAURA B. VOTAW.

A woman cannot have a fair skin or fine figure if her womanly organs are weak or diseased. Such a thing is utterly impossible. On the other hand, a woman with strong, vigorous, perfectly healthy organs cannot be homely, emaciated or unattractive. The minute you drive disease out, the features, the skin and the figure will show a wonderful change for the better. Beauty in woman is nothing but the outward indications of health. Wine of Cardui does for women what cosmetics and powders cannot do. It is for the cure of all feminine ailments. It doesn't matter much what the doctors call the

## ADVANCE IN WHEAT

Market Started Easy at a Decline Owing to Bearish Reports.

#### THE CABLES LOWER

Falling Off In Domestic Receipts and Crop Damage Caused Reaction.

Duluth Board of Trade, Feb. S .- Wheat s arted easy and lower today owing to a si arp decline in prices at Liverpool and a break in the stock market at New York. There was considerable buying, however, and this, added to the decline in domesthe receipts and further reports of damige by cold weather to the winter wheat crop caused an advance. Later there was a rush by longs at Chicago to realprofits and a reaction followed. The price did not fall off very far, however, and more buying soon sent it up again to the best figures of the day. The fact is that, from a statistical standpoint, woeat in a strong position and the omy thing that keeps it from advancing is the con-stant liquidation. Until the last bushel of the long stuff has been disposed of, in great rise may be expected, but the liquidation must be nearly ended and as the export takings are of good sized vo ume there will soon be a more oullist market. What the market needs now is nore buying by outsiders. The close to y showed a net advance of % on the fay option over yesterday's close. Trading was duff on the Duluth board. May wheat opened 14c lower at 70%c, advenced to 71%c at 10:40, reacted to 71%c at 11.40 and was quoted at 71½c at 12:15. It tuled dull but strong up to the close, which was at 71%c, a net galn of 7%c for the day. Cash business was dull, only being sold, at 11-c under for wheat to arrive and 25c under for pot stuff. #### ON THE CHICAGO BOARD. Damage Reported.

Small Receipts of Wheat and Crop Chicago, Feb. 8 .- A sharp decline at Liverpool and the break in the stock market today started wheat easy. The weaktiess soon disappeared, however, as doin stic receipts showed a decided falling off and crop gamage reports on account of the severe weather continued. May opened 4c lower at 715,4713c and met stch general buying that the price gradually worked up to 723,4723c. St. Louis parties bought largely of the July delivery white local traders filled up with May. Receipts here were 114 cars, of which 20 graded contract. The Northwest received only 255 cars as compared with 318 for the corresponding day a year ago. At 72 a number of traders had hand-some profits coming and took advantage of the improvement to secure them. This caused a slight reaction and May sagged off to 721sc. As the session advanced trade became very active and with the aid of heavy clearances at the Atlantic seahoard May was old up to 72%. Western primary market receipts were about the same as for the same day a year ago. The weak cubles were ignored entirely toward the tion. The best buying came from St. Louis and local shorts. The market closed Advices from the country that the con-sumption of corn had greatly increased owing to the cold weather, strengthened that commodity. Receipts were large, 575 Cars. May opened a shade lower at 36126 36 c and firmed up to 3653636. Trade in oats was brisk, with elevator core rus buying heavily. Receipts 182 cars. May started be lower at 275c and rose to good shipping inquiry for meats with higher prices for hogs and extensive covering by shorts strengthened provisions. May pork opened a shade lower at 10:10 and advanced to \$10:15/410:17. May lard began unchanged at \$5.75 and improved to \$5.77. May ribs started unchanged at \$5.77. May rlbs started unchanged at \$5.05 and rose to \$5.0745.19.

#### THE CITY ELECTION.

The lack of interest displayed by the voters in the city election yesterday was surprising. Less than 4600 votes in all were cast. It is regrettable that the people do not take a greater interest in the selection of city officers, because the proper conduct of municipal affairs is of much more importance to them personally than is the election of a governor or congressman. With the aldermen dwells the power to regulate the expenditures of the city, and consequently the amount of taxation varies in accordance with the character of the council. An economical board of aidermen will keep down expenses and thus reduce taxes, while an extravagant board will be certain to raise the rate of taxation and increase the burdens of

Happily, however, those citizens who did go to the polls yesterday performed their duty well in most instances. The election of Mr. McCormlck to the comptrollership was a surprise to many people. His success may properly be ascribed to the hustling qualities of the younger element, who took a special interest in his candidacy. They worked hard for his election, and it was undeniably a young men's victory. In his support were enlisted voters of all shades of politics, and his election cannot be honcity elections, the people of Duiuth showed their inclination to vote independently and without regard to party estly claimed as a victory for any popendently and without regard to party lines.

Not one of the aldermen seeking reelection received a majority of the votes in his ward, aithough there is still a chance that Alderman Johnson may retain his seat on the decision of the tie with Dr. Cullum, in the First ministration of the city's affairs. Conrequently the result of the contests may be regarded with satisfaction.

## LOVETT BEATEN

Grand Hustle of Young Men Lands W. S. McCormick in Comptrollership.

### **ALDERMANIC RESULT**

Dr. Cullum and Johnson Get 308 Votes Each-Other Wards.

The fusionists elected four aldermen yesterday, the Republicans three, with the First ward a tle, Dr. Cullom, the fusion candidate, having annihilated Alderman Johnson's, Republican, majority of over 100 two years ago. W. S. McCormick, the Republican candidate for comptroller, defeated Comptroller Lovett, the fusion candidate, by Sixth ward

The candidates in the First ward. Messrs, Cuiium and Johnson, wili draw lots to decide the tie. The drawing will be in the presence of the council and in such manner as that body shall direct, and will probably take place when the vote is canvassed. Monday

The election was a remarkably quiet one. Out of the small registration of 5242, there were 4553 votes cast, a remarkably small proportion. One reason for this is, perhaps, that partisan spirit was not aroused, party lines having been lost sight of entirely, as was amply evidenced by the action of the First precinct Republican convention in virtually enorsing Treasurer Voss, the fusion candidate, for re-election. The result in the First ward, a Republican stronghold, and the onslaught in the westein wards on Comptroller Lovett, the fusion candidate, further evidences the lack of display of partisan spirit as does the contrast between this campaign and that of last fall in the city. Besides the tie in the First ward allermanic contest, there was one in the Fourth ward in the comptrollership race: in the Fifth precinct of the Sixth ward and the Second precinct of the Seventh ward, McCormick and Lovett

Hennepin County Authorities Will Prosecute Two Abductors of Young Women.

### FOUND NEAR DULUTH

Girls Were In a Dance House Not Very Far From Here.

A few days ago it was announced in Duluth papers that Detective Hicks, of Minneapoiis, had brought two young Minneapolis giris down from Two Harbors, who had been found in a house of unsavory reputation at that place. The detective took the girls to their omes in Minneapolis. Their names have been kept secret thus far, but It seems that the Minneapolis authorities do not propose to allow the matter to be dropped. The grand jury of Hennepin ounty will be requested to take it up. The Minneapolis Times tells the following story of the case:

"Two girls, one a high school girl, were enticed away from their homes in this city some two months ago. They were taken to a dance house on the outskirts of a small lumber town just above Duluth. The indignities they were forced to suffer while held prisoners a this house almost beggar description Sunday morning they were brought this city by a central office detective who rescued them from the resort. The entire matter will be placed before the grand jury at its next session. #### ATTRACTIVE WOMEN.

Fullness of Health Makes Sweet Dispositions and Happy Homes.

[EXTRACTS FROM MRS. PINKHAM'S NOTE BOOK.] Woman's greatest gift is the power to inspire admiration, respect and love. There is a beauty in health which is more attractive to men than mere regularity of feature. To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study. At the first indication of ill health, painful menses, pains in the side, headache or backache, secure Lydia E. Pinkham's Vegetable Compound, and begin

### THE CABLES STRONG

Absence of Export Demand and Dull Cash Business Caused Weakness.

Daluth Board of Trade, Feb. 9 .- The Who at market opened strong and higher this morning. There were several builtsh inflaences present to inspire the belief that high r prices should rule. There was more talk of injury to the winter wheat crop by the continued frigid weather, the cables were strong. Northwest receipts were light and a good demand for flour was reported. The opening strength did not last long, however. Word came from New York that the export demand was Special Attention Given to Copper Stocks. practically nothing and the cash markets in this country were dull, consequently tree selling started at Chicago and the orice of May wheat steadily declined until stopped by free buying of the July options by St. Louis parties. Later there was a reaction and an advance of 14c above the opening prices was recorded. The close was strong and 5c higher at Chiengo and 5c higher in Duluth for the May option.

Chancellor McCracken Urges the Drilling of Boys In School.

Tampa, Fla., Feb. 9.-Chancellor Mcracken addressed the international nilitary convention today. He spoke in part as follows: Answering the question "What does

MacCracken said he came to the discus-sion free from pre-judgment. The one Representatives object of the convention would be, he said, o reach such results as should be be for the boys of America and therefore best for the homes of America, and, through America, best for the world.

"The schools of America are magniticent in extent. They are a possible parade ground for an army of 10,000,000 boys. The last report of the national commissioner on the school computation makes. sloner on the school population, make: the boys between 5 and 18 years of age 641,992. This gives us over 800,000 boys every year passing the 18-year limit and becoming men. Soon we shall have 1,000,-000 youth added every year to the manhood roll of the United States of America. "If military drill were confined to those only from 14 to 18 years of age we should have an army of 3,000,000 and over. The main question is, shall at least the 3,000,-600 of boys from 14 to 18 years of age have the opportunity of learning something of rules and exercises that make inci

larger number than the total forces alled out by the president for service the ast year. Marshalling the two together, remembering that in the ordinary regi-nent there is one commissioned officer for every 20 men, and we should not have from all the high school boys of the country enough young fellows to or-ganize one-half the boys that ought to be in the common schools. > WANT RECOGNITION Claim West Duluth Has Received Nothing But Promises Thus Far.

There is undoubted satisfaction in certain circles at this end of town over the political results of Tuesday. And the members of this circle are not slow in offering the information that other politicians who have given West Duluth nothing but promises in exchange for votes are marked for slaughter when their time comes. Men standing high in the party are already marked as targets unless there is a very deelded change in present conditions concerning the distribution of offices.

They admit that C. E. Lovett was not personally to blame for the alleged disrimination against West Duluth, but his was the first head that bobbed up and they clubbed it as a warning to others. This faction, of course, is not a large part of the fusion party, but it is sufficient to cause considerable defection in the party vote when so desiring. #### THE MCENERY RESOLUTION.

It is said that there is now a disposi tion in the senate not to adopt the Mc Enery resolution at present, but to delay action until the military and naval authorities at Manilla have secured peace and made the Filipinos respec the American flag. Indeed, some Wash ington correspondents claim that the resolution may never be passed, although the ratification of the peace treaty with Spain was effected by an agreement to adopt this resolution. This would be a serious mistake, because the adoption of the resolution would bar the way to any reckless extension of of \$3,191,300 in premlums, while their tothe way to any reckless extension of American control in the Philippines.

Mr. Kiefer, of St. Paul, was then in congress, and this became his pet project. He finally succeeded in securing an appropriation for a survey, and the direction, as stated above, that the most feasible route be reported

The work fell to Maj. Sears and for several months he had engineering parties in the field going over all the available routes. His report was to the effect that the Brule river route was whether he considered the project feasible at all or not, for the directions in the river and harbor bill did not ask for his opinion.

For several years this project has not been heard of but now it has bobbed up again. The river and harbor bill, which has passed the house, directs a report on the feasibility, cost of construction, operation and maintenance of such a canal. It will, of course, fall upon Sears to make the report should the bill become a law, with this section included. There will be no more surveying work in connection with the report, but a considerable amount of office work will have to be done. The field notes are all in the office here, and from these construction cost, etc., will

Eighteen Months Old Baby Had Rash on Shoulder for Two Years Causing Intense Suffering. Would Scab Over. Break Open and Be Raw. Several Doctors and Remedies Tried. Efforts Fruitless. Cured by CUTICURA.

My sister had this rash come on her shoulder when she was about eighteen months old. It was there about two years causing her intense suffering. We had several different doctors, tried everything that we could think of, and that every one could suggest without effecting a cure. In spite of all we did it kept spreading. One day it would scab over and then crack open and a watery matter ooze from it and the scabs would all fall off. It would be raw for a time, then scab over again. Some one recommended Cuticura Remedies. We immediately procured a box of Cuticura (ointment), a cake of CUTICURA SOAP, then tried the CUTICURA RESOLVENT, and before the bottle was half gone we saw a marked change, and by the time it was gone, she was entirely cured without a scar being left. Forfeited Tax Law Brings Up a New Difficulty.

There is no end to the complications of the forfelted tax law, apparently, County Auditor Halden offers a new one, which seems to be something of reason why the law should not be repealed, though it hardly seems strong enough to prevent the repeal if the members of the legislature favor it. This complication is in the case of the Lakeside Land company, in whose name a large number of tax cases were appealed to the supreme court last year and decided in favor of the county. Time Check Evil. St. Paul, Feb. 10.-The senate committee of logs and lumber yesterday afternoon gave a hearing on the bill of Senaor McCarthy of Grand Rapids providing that logging camp employes shall be paid for their services on quitting work, in-stend of in the spring. The Minneapolis umbermen were represented by Attorney Happ. They contended that the bill would operate against small logging contractors, who having small capital and credit, might be forced out of business. Senator McCarthy replied that the owner of the timber might furnish the money to pay the men. The lumbermen also protested against the provision that the employe shall be paid \$1.50 a day, while waiting for the matter to get into court this will probably be amended to apply only to the time spent actually in cour a foreclosing the Hen. Senator McCarthy elieves that with this change the bi will pass. He says that owing to the practice of speculators or shylocks in time checks perfectly good paper frequently commands no more than 50 per cent of ts face in Itasca county. #### THE FREE PASS EVIL.

According to the Milwaukee Sentinel Wisconsin will soon take the lead in the procession of states that will eventually be marshalled against the free pas evil. In many states efforts have re peatedly been made to enact laws for bidding railroads to give passes to legislators or judges, or the latter to accept them. Governor Lind made a recommendation for such a law in his in augural message to the Minnesota legis lature, and later a bill was introduced dealing with the subject. The house promptly killed the bill with a commit tee report for indefinite postponement The sentiment in the legislature favor. retention of the present condition under which legislators can travel a over the state free of expense. But the sentiment in Wisconsin is different There the people have become arouse to the importance of striking a blow a the free pass evil. The Sentinel says:

"A DOLL'S HOUSE." Miss Clara Thropp will be seen at the Lyccum next Tuesday evening in "." Doll's House," a drama by Henril lbsen. The story is one of engrossing interest. Nora, the petted and spoiled wife of Torvald Helmer, is the centra figure of the play. Her youth had beer passed as a doll-child, she is Helmer' doll-wife, and their home is "A Doll's House." After eight years of married lif, the shadow of a dread secre crosses her path and opens her eyes for the first time to worldliness, selfishnes and crime. When the love and confidence of her husband is weighed and life crumbles to dust and Nora stands revealed a woman. Of the remarkable characters in this much-discussed play t is not too much to say that they are the creation of a genius whose knowledge of human nature is as profound as it is wonderful.

This Is the Season of the Year When It is

Heaviest. Steamship agents are now in the midst of a busy season, for the prepaid steeringe business is larger than it has been for several years. Prepaid business, as described by a local steamship agent, consists of new immigration to this country from the various foreign countries that supply new citizens for the United States. Their tickets are purchased sometimes on lest and most convenient remedy for the other side, and often they are purchased here by relatives of the foreignborn people who are coming to settle in this country. The relatives have been enjoying some degree of prosperity, and when they get money enough ahead they

so that they can be in on the work that opens up in the spring, or in order to get started at farming, if they are to take up land, at the earliest possible moment. Last year at this time there was every prospect that the immigration to this country would exceed that of several preceding years considerably, but the rumors of war that started in the early spring, and the certainty of war that followed, was effective in nipping this in the bud. The consequence was that there was comparatively little prepaid business lust

This year it is expected that this de-This year it is expected that this de-layed business, as well as a good deal of entirely new business, will materialize, and the Northwest will get a larger num-ber of new settlers. They scatter all over the Northwest, many of them coming to Duluth. The Scandinavian and Teutonic countries supply the greater portion of this business, especially Finland, Sweden, Norway and Germany. The British isles furnish comparatively little of the pre-paid business. Russia furnishes a good deal but there is some government reguleal, but there is some government regu lation that prevents shipping of emigrants from Russia, so those who intend to come from Russia, so those who intend to come to this country work up to some German port. Hamburg, most likely, and then take passage to this country.

About this time the foreign-born peoples who spend their winters in Europe begin to come home. They go over in the fall and remain all winter, returning in time to go to work at the earliest moment in the spring. Duluth furnishes a very large amount of this business.

The ears of many hogs surrounding towns to the stockyards in dropped off, they being so badly frozen that the least touch caused them 'te fall to the ground. Cattle likewise suffered severely, although but few of them died from the effects of their trip. The cold weather has seriously hampered the railroads and all trains are from one-half hour to three hours late. Navigation on the Allegheny, Monongahela and Upper Ohio has closed and the two first named streams are frozen over. The indications today are for slightly warmer weather.

#### AN ARMY OF SHOVELERS. STEAMSHIP TRAVEL. Attempt Being Made to Clear the Leadville Railroads,

Leadville, Col., Feb. 10 .- One thousand men armed with picks and shovels started out this morning to clear the snow and middle of next week. ice off the Denver & Rio Grande railroad tracks below this city, so that coal may be brought in to enable the smelters and mines to continue work or at least to keep the mine pumps in operation. The Lead ville Pumping association, which is un-watering the down town mines that have been flooded since the big strike, has only enough coal to last twenty-four hours.
The stoppage of the pumps, just on the eve of completing the important work which has been in progress for the past six months, would be a serious blow to Leadville mining interests. So the mine and smelter managers decided to aid the railway companies in opening up their lines and the shovelers sent by them to-day will receive the same wages as when working in the mines and smeiters. Many business man have also gone out as volunteers to shovel snow. Col. George W. Cook is in command of the shoveing brigade, and among his assistants, who E. J. McCarthy, one of the

lays, stopped last night, and the tempera-ture has risen, but the indications are for more snow. Aspen is entirely isolated, the railroads being blockaded and wires down. The Midland people hope to have their line open to the west winthin forty-eight hours. The Rio Grange tracks in the Grand canon are buried under great piles of snow which have fallen from the almost perpendicular mountain sides.

FROZEN AT BUFFALO. Buffalo, Feb. 10.-John Weith, aged 3 years, a carpenter, was found last night frozen to death in his sleigh in the suburbs of the city. The thermometer at the weather bureau registered 8 degrees below zero at 8 o'clock this morning.

CLEVELAND RECORDS BROKEN. Cleveland, Feb. 10.-Sixteen degrees below were indicated by the government thermometer early today. The local forecaster reports that during yesterday the mercury touched 17 1-10 below. This is the lowest point reached in the history of the Cleveland weather bureau office,

It was provided that in case of default for sixty days in the payment the interest the trust company could | Per 10 for Fresh Pork Butts,

terminate the lease. It is alleged that on Feb. 1, 1899, default was made in the interest in the sums of \$16,250 interest on the first mortgage bonds and \$7500 interest on the second mortgage bonds. It is alleged that the financial affairs of the bridge company are in an embarrassing condition, and that the income is insufficient to most cient to meet expenses. S. T. Norvell is said to have some interest, but the trust company professes to have no knowledge of what it is. The foreclosure of the first mortgage and the appointment of a receiver or receivers is asked for. Billson, Congdon & Dickinson are the attorneys. Some time ago receivers were appointed for the bridge company, but a short

ime ago they were discharged. It is ninted that there has been some trouble between parties in the company, and it s possible that the foreclosure grew out of that.

FRANK CRASSWELLE,

ommend the passage of the attached bill,

Your special committee to whom was referred the matter of the investigation of the collapse of the pipe line bridge across Tischer's creek the night of Nov of this matter together with the report of Olaf lioft, the expert engaged by said committee, was furnished us and carefully was thought advisable to seek additional expert advice. Accordingly your communities engaged Palmer C. Ricketts, of Troy, N. Y., professor at the Renss-laer polytechnic institute, a man of ex-tended and varied experience as bridge ingineer. All the evidence, reports, tables, photographs, plans, specifications, and anything that could have any possible bearing on the matter was sent to Mr. Ricketts to enable him to make a thorough investigation.

After the consideration of all the evidence and rootts your committee is of the opinion that the cause of the failure of the bridge was due to the fact that the lans and specifications, prepared by our city engineer, or under his supervision and direction, are faulty and defective. both in general and in detail, and more particularly that the lower chords were not strong enough to sustain the weight placed upon them, and that the later was the direct cause of the collapse. We do not deem it necessary here to go into further details, as all the evidence and re-ports, which speak for themselves, are hereunto attached and made a part of this We dislike more than we are able to tell

CHINESE NEW YEAR

Celestials llave Been Celebrating This Occasion For Two Days.

OF MUCH INTEREST

Customs Observed Rather Peculiar---Will Have a Banquet Soon.

Yesterday and today were the first wo days of the new year according to he Chinese calendar and the sons and laughters of the Flowery Kingdom at he head of the lakes celebrated ac-Year's it is the Chinese custom to send ut as greetings pieces of red paper with the name of the sender. The Duuth Chinamen were receiving their greetings yesterday and today from all ver the country. The years are reckoned from the acession to the throne of the reigning mperor, and yesterday ushered in the

ear 25. In China, the celebration lasts rom two weeks to a month, but the Chinamen in this country are imbued business and two days is all that they can spare from the struggle for During the celebration no bills are collected or paid, and the Chinese n this country have generally adopted his custom for the two days that they elebrate here.

THE REGULAR THING.

Superior Is Still Clinging to Its Board of Trade Dream.

The following appeared in the St. Paul Dispatch yesterday as a special from "The statement has been made that vithin three years there will be only one poard of trade at the head of the lake and hat one will be in the city of Superior. the statement comes from James Cargill, he elevator and grain man, who was seen y a prominent Superior business man in the East a few days ago. Mr. Cargul further stated that the coming wheat crop will de a great thing for Superior by placing it in the foremost ranks of wheat centers in the world. Wisconsin inspection, Mr. Cargill is quoted as saying, will also be put in within the three years predicted, and it will have the backing of the elevators doing business on this sine of the bay. Among grain men here it is and that there are reasons why there is not the same support for Minnesota in-spection now that there was a few years

Every now and then some such statenent emanates from Superior evidently being made for the purpose of keeping p hope in the minds of SuperiorItes. me among the Duluth grain men thinks hat Mr. Cargill ever made such a state-nent and say that if he did his judgment s open to severe criticism. The Superior beople gained temporary hope when the North Dakota legislators came here and ooked things over with a view to determining whether it would be wise to establish by the light of the control of lish North Dakota inspection at Superior. The committee looked Superior over and was very favorably impressed with the milts and elevators there. When they began to look around to find out where their grain was sold, nowever, they found it was nearly all handled on the Duluth board and the market furnished Superior mills was insignificant and that they bought their wheat either in Duluth or Minneapolis; also that near at

Duluth or Minneapolis; also that near all the wheat shipped to commission men in Superior is by them sold on the Duluth board of trade. This led them to examine the Minnesota inspection very carefully and they made up their minds that it is good enough for them.

The idea that North Dakota should have representation on a board of appeals is considered a very just one by the grain men here and they will assist in its adoption so far as they are able.

TO CUT THE CARDS.

That Is Conceded to Be Best Way to Settle the

The interesting question of how the tie between Alderman Johnson and Dr. Cullum, in the First ward, shall be deeided has not yet been settled. It is generally believed that drawing cards would be the most satisfactory way. It is proposed that a new deck be procured and the eards shuffled. In case this method is followed, it is believed that the duty of shuffling the cards will be devolved by common consent on Alderman Jefferson. The tie will probably have to be disposed of before the council passes the esolution announcing the result of the eanvass Monday night. It was stated this morning that it is not improbable that Alderman Johnson

The Increase of Scotch Distilleries Has Caused a Great Overproduction.

#### MADE IT FROM CORN

Result Will Be a Decrease In the Importations From America.

Washington, Feb. 1i.-Consul Fleming

from Edinburgh reports to the state department a serious crists in the whisky trade in Scotland. This is attributed to by gradual accumulation placed a surplus stock of over 137,500,000 gallons of whisky in the bonded warehouses of the United Kingdom. Years ago the large dis- licate and important organs that make wifetilleries in individual ownership or in the hands of a few men proved remunerative and this tempted the "promoter" into the field. Within a few years the number of distilleries in the United Kingdom has reached 184, of which 143 are in Scot-land. The new distilleries are nearly all mmense concerns and production has been pushed to the utmost. Consequently he supply on hand has been fur ahead of home consumption and the export trade combined. To cheapen production the in-troduction of American Indian corn has been resorted to, grain spirits being pro-duced at from 28 to 30 cents a gallon, igainst 70 cents for malt whisky. The blends have kept up to the stand-ard price, averaging \$1 a gallon in bond. Under the impression that the market tilleries have been kept running at capacity, but the immense surplus been more than the trade could carry and there has been a sharp break in wholesale have been invoked to prevent a panle in the trade. The chief American interest at stake is in the decrease in the importation of American corn involved in the reduction of output in the Scotch distilleries.

When a young woman sits down and ponders over her future life, there is one all-important subject which she should not forget. In a day dream she may build castles in the air with a happy home, laughing children and a loving husband in the fore-ground. At that moment she may be facing death. Matrimony and motherhood hold out no happiness to the young woman hold out no happiness to the young woman who suffers from weakness and disease of the distinctly feminine organism. #### OUR LETTER FROM LONDON

Muggy Weather In London.

London, Feb. 11.-(Copyright, 1899, by he Associated Press.)-The bright, cold iap of January has been succeeded by one of the muggiest Februarys on record, one of the muggiest Februarys on record, the thermometer during the past week standing at 58 degrees. Similar and unusual mildness is reported from the continent. There have been severe storms over the south and southwest portions of the British isles, and floods in many parts. The River Thames has risen seriously and many residents of Windsor have been removing their furniture as a result of the inundation.

Influenza has resumed its sway, but it is not of a deadly type.

Tragedy Behind a Death. There is a dark tragedy lying behind the leath of young Prince Alfred of Saxe-Coburg and Gotha, the only son of the duke of Saxe-Coburg and Gotha, second son of Queen Victoria. This adds greatly to the grief of his relatives. He was handsome, tall and of manly bearing, and his slight, boyish figure, in a brilliant Hussar uniform, was conspicuous during the jubilee festivities in England. Soon after the jubilee, the prince returned to his regiment in Berlin, one of the crack guards regiments; but he soon felf into bad hands, became entangled in the gambling scandals, and, finally, this resulted in his cousin. Emperor William, dismissing him from the guards, and, under the guice of promotion transferring other officers who were mixed up in the gambling scandal were cashiered. But gambling was not the worst featample supply of nourishment. Thousands of women who were weak, sickly, nervous invalids, are now healthy, robust wives and competent mothers of healthy children, as the result of the use of this medicine.

Mrs. John M. Conklin, of Patterson, Putnam Co., N. Y., (Box 104), writes: "I am enjoying perfect health and have been since I took the last bottle of Dr. Pierce's Favorite Prescription. I had falling of the internal organs, or female weakness, and flowing caused by miscarriage, add was very weak when I commenced taking your medicine."

have lost parts of their tows and are aground, while one, the Fred Wilson, is lying in eight feet of water. Altogether there are about \$,000,000 bushels of coal alloat between Pittsburg and Louisville.

To these conditions add the fact of an almost unprecedented accumulation of snow in the watersheds of the Monongahela and Allegheny, and it becomes apparent that the inevitable break-up in the river is to be feared. River men are fearful of a flood that will do great damage along the rivers. Twenty years ago a similar state of affairs regulted.

Typic in the voing prince sease. He induced in other dissipations which under mined his health and brought about his untimely death, as it did with Alfonso XII of Spain. Sarly in January specialists pronounced Prince Alfred's state to be hopeless and his succession to the throne of Coburg out of the question. The prince, however, had to participate in the silver wedding festivities of his parents and was carried to the gala performance at the Coburg theater in a Sedan chair. Four days before the prince's death the disease from which he was suffering in an agonizing end. He died without any of his relatives near him, in a delimination of the induced in other disease. Prominent among the guests was Mrs. Henry White, wife of the United States representative, who is at present chaperoning Lord Rosebery's daughters.

The most gorgeous festivity of the week, however, was the bail at the Hotel Cecil in aid of the Gordon memorial College at Khartoum. There was a dazzling display of jewelry and embroidery and the duchess of Marlborough was again the center of attraction in white muslin with rich pink embroidery. She wore her famous pearls, of which she had tifteen or sixteen rows around her neck, besides a neckince of diamonds and a double tiara in her hair. Lady Randolph Churchill's pearls were almost as splendid.

# Nervous People.

Nervous people not only suffer themselves but cause more or less misery to everyone around them. They are fretful, easily worried and therefore a worry to others.

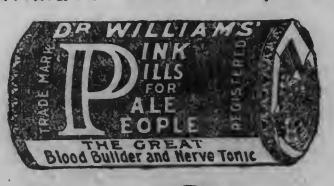

When everything annoys you; when your pulse beats excessively; when you are startled at the least unexpected sound, your nerves are in a bad state and should be promptly attended to.

Nervousness is a question of nutrition. Food for the nerves is what you need to put you right, and the best nerve food in the world is Dr. Williams' Pink Pills for Pale People.

They give strength and tone to every nerve in the body, and make despondent, easily irritated people feel that life has renewed its charms. Here is proof:

Miss Cora Watrous, the sixteen-year-old daughter of Mr. I. C. Watrous, o. 61 Clarion St., Bradford, Pa., was seized with a nervous disorder which threatened to end her life. Eminent physicians agreed the trouble was from impoverished blood, but failed to give relief. Mr. Watrous heard Dr. Williams' Pink Pills for Pale People were highly recommended for nervous disorders and gave them a trial. Before the first box had been taken the girl's condition improved. After using six boxes her appetite returned, the pain in her head ceased and she was stronger than ever before. "My daughter's life was saved by Dr. Williams' Pink Pills for Pale People," said Mrs. Watrous. "Her condition was almost hopeless when she commenced taking them, but now she is strong and healthy. I cannot recommend these pills too highly."—Bradford (Pa.) Era.

Good Export Clearances at East Second streetthe Seaboard and the Receipts Light.

Duluth Board of Trade, Feb. 11.-Wheat ruled stronger at the opening today, the bullish feeling being due to higher cables, a renewal of crop damage reports and light Northwest receipts. There was also good buying at the start, but a reaction was caused by those who were anxious to realize profits on their holdings instead of carrying them over to Tuesday. The Liverpool market, however, continued to show a steady advance in prices and there were reports that the export clearances at the Atlantic seaboard would reach large tigures today. LETTER FROM ALASKA. William Spencer, owner of the Grand Central Drug store here, now a resident of Port Vaides, Alaska, wrote a letter in November last to A. J. Lind-strom, manager of his interests here, and the letter has just been received by that gentleman, together with several photographs of Alaskan scenes. Mr. Spencer is the owner of a fine frame hotel at Port Valdes known as the Hotel Valdes. He is also engaged in carrying mail to the interior. He reports that he made several hundred dollars on his first trip over the pass with mail. The dangers are many and the cold excessive. He says that one party of four men were caught in a snow storm while on the trail and lived four days in a snowbank before they could again venture out to face the severe weather. Mr. Spencer is well pleased with the country and is doing well. His family lives in Minnesota.

The necessity of action being taken by the state of Minnesota to definitely fix our northern boundary was alluded to a few weeks ago by an article in The Herald written by the veteran surveyor, George R. Stuntz. He showed that a large extent of valuable territory that is now claimed by Canada is really on the American side of the boundary if a proper survey was made and the line marked out. In another column today will be found a letter to Governor Lind on this subject that has been written by Edward E. Lewis, who takes a deep interest in the northeastern corner of the state and knows the value of the land that is now alleged to

#### UNRIGHTEOUS ABUSE,

The Des Moines News makes a timely protest against the unwarranted for abuse that is being heaped by imperialist organs upon the members of the scnate who voted against the peace treaty. As the News favors the expansion policy, its protest naturally has greater weight than if uttered by a journal that opposed ratification of the treaty. It alludes to the Chicago Inter-Ocean as a sinner above all others in this respect. Speaking of the brave men who dled at Manilla, the Inter-Ocean said: "Their blood is on the blood-stained senators." Gomez should have an exalted place in it. Boston Transcript: The transaction is not a bribe, for the Cubans have a very fair claim to some assistance in starting civil careers after almost four years of fighting, which has devastated their country and reduced the mass of the rural population to want. Cuba belongs to the Cubans, Had we not intervened, had Gomez and his associates conquered the freedom of the island without aid from us nobody could have questioned their right to pay themselves for their services. We, however, have stepped in and are now administering Cuba

now administering Cuba.

New York Times: On our part this measure of relief to the Cubans solves problems that it might cost us many times hree millions to dispose of in other ways. To disperse this Cuban army and secure the friendship and co-operation of Gomez is a great stroke of policy. The opinion of the delegation from the Cuban assembly that \$51,000,000 would be about right if we were thinking of paying off the in-surgent forces gives us an inkling of troubles and embarrassments we might have drifted into had we not found Gen. Gomez in such a rensonable and business-like mood. While the Cuban army kept its organization and its rifles we could never measure the difficulties in our path As soon as these men abandon the mountains and the business of insurrection for the sugar and tobacco plantations and productive toil the outlook for the Cuban administration will be freed from a multitude of perplexities.

Springfield Republican: The administration merits approval and praise, which all of its critics will award, for its sucessful handling thus far of the Cuban econstruction problem. It was a graceful and shrewd act to send a special com-missioner like Robert P. Porter to visit sonal co-operation in bringing order and prosperity out of chaos. At one time there

was danger that the one man in Cuba most capable of mischief would be ig-nored by Gen. Brooke, but that danger is is another wise step on the part of our government. The money is to be advanced ostensibly as an aid in getting the vanced ostensibly as an aid in getting the people to work and can be charged against the custom house receipts of the island. Back of all this success thus far in Cuba, however, is the promise not to annex the Island. Were that pledge to be repudiated tomorrow Gomez and his army would be in the hills defying American authority by the first of next week can authority by the first of next week.

It was very hard to give up coffee, but I was compelled to do so, and for a while used water and milk. Then I tried a so-called cereal coffee, which I have since learned is made partly of coffee and partly of browned grains, and is sold as an linitation of your Postum. This did not work so I went back to the water and milk until about a year ago I got hold of Postum-the genuine. Since then I have had one cup and sometimes two every norning, and frequently for dinner at light. My health was never better than t is now, no nervousness nor muscular contraction, no heart trouble or sour stomach, and the pulse running from 70 day evening.

At the time I was suffering from the some life insurance, and was rejected on account of the action of my heart, March last I was examined for life in surance and passed a most excellent examination. The Church Missionary association has designated three missionaries who soon begin work at Khartoum. The more prominent clergymen of Baltimore have been interviewed with regard to the proper length of a sermon. The prevailing opinion is that it should not extend over half an hour and should deal with man's relation to his Maker.

An estimate has been made by some one of the cash expense of converts to Christianity in foreign lands as follows: Methodist converts, \$12.08 each; Baptists, \$47.52; Congregationalists, \$176; Presbyterians, \$232. The Independent thinks these figures are inaccurate and misleading.

Rev. Hiram Bingham of Honolulu has devoted the greater part of his life to the preparation of a technical treatise on the Micronesian languages and a dictionary thereof, and now, when the work would have been especially valuable, he has lost the manuscript. The Honolulu police are engaged in looking for the missing book and a reward has been offered for its rewith man's relation to his Maker. covery.
Bishop Mrak of Marquette, Mich., is the oldest living missionary to the American Indians, his work among the red men in Indians, his work among the red men in Michigan having begun early in the century. He found the untutored savages always trutful and says that, contrary to the general belief, they were not a cruel race. Mrs. R. G. Wilder of Montclair, N. J., is another venerable missionary. Though 75 years of age, she is about to start for India to resume work there as a Presbyterian missionary.

Evangelist Moody likes an occasiona game of cards. One evening in San Frangame of cards. One evening in San Francisco he and some friends were playing whist when a messenger boy entered with a dispatch. "Won't you sit down and play a game of 'authors' with us, my lad?" said Mr. Moody. The boy declined and soon left the room. "If I had not suggested to that boy the idea that we were playing 'authors,'" said the world-ly wise preacher. Brooklyn Eagle: What with the bill establishing a Catholic and a Protestant university in Ireland and the prospect that the ritualistic question in England will be a prominent topic in the conting session of parliament, religion will occupy the principal place in domestic British politics for some time. This is the penalty attaching to the union of church and state. It is the good fortune of the nowned Joan of Arc. Her anniversary has been celebrated for 360 years and the French people propose to continue it in her honor. Joan was burned by the English general, the duke of Bedford, as a witch to the disgrace of himself and the nation which he represented.

Buffilo Express: A New York magistrate lately ordered an old and dirty Bible which had been kissed by many a witness removed from the court. In doing so the said: "I'm not going to use the Bible any more. There is no law compelling its use and hereafter I shall have all witness sworn by raising the right hand." The Bible is nothing but a breeder of discase when used in this way. All sorts of bums and diseased persons kiss it and it is dangerous to have it about." This action may be radical but it will be approved by the cleanly.

The mind of a pugilist is like unto a reed before a storm. When Kid McCoy was here and before his arrival in Omaha a week ago he declared himself an exile from the roped arena for several months in order to accumulate the necessary complement of physical fiber to fit him for a mill with the heavyweight topnotchers. When he reached the salubrious climate of Colorado, however, his trolley switched and he decided that he was a match for Fitzsimmons from crown to sole, says the Omaha Bee. Upon his arrival at Denver, therefore, he wired a challenge to the blacksmith. A few hours' sojourn in the life-giving ozone of the Rockies con- years: vinced him that he still remains the match of Sharkey, despite the lamentable tragedy that occurred in the New York arena a few weeks ago. Consequently he followed up his Fitzsimmons defi with another to the able seaman He has received an answer to neither up to date. The Kid needs to take a warp in his chest or else cut out the Colorado ozone, for his fight with the sailor demonstrated that he is a natural middleweight, even though his science will whip the majority of the heavies. He is also too feathery to solve a proposition like Fitz or Sharkey.

For Sharkey, Fitzsimmons and Jeffries, the most formidable of the men.bers in the heavyweight division, stand as three husky arguments against the theory that pliant science can conquer the combination of science and strength. Corbett and McCoy, who are regarded as the ideal of boxing science, can outpoint the blacksmith, the boilermaker and the able seaman in the clever dodges and tricks of boxing skill. The government at Ottawa responded with the most earnest apologies, and Brown was sent back and locked up in an American prison, to be taken thence only by the prescribed channels. Now Ontario is having a political squabble over the affair, which is purely of interest to itself, but which menaces its parliamentary elections. The question is the defense of the zealous detectives who broke the law, and it seems that some of them will go to prison with their late prisoner. The itch of these men for notoriety appears to be in a fair way to receive an unexpected form of acknowledgement, and a needed lesson will be administered to a large class of which they form group, that detectives are also subject to the law. Meanwhile over this matter a legislative body is changing its political complexion.

#### EFFECTS OF COLD.

The Improved Distribution of Heavy Winter Goods Is One Result.

New York, Feb. 11.-Bradstreets toare likely to follow the atmospheric changes of the week is evidenced by reports of improved distribution at retail on spring trade appears to be chiefly regarded as one of retardation rather than of positive injury. In leading staples the strength of prices is still a feature, all the galns made in January being sustained if not further improved.

Some reflection of the cold wave is found in the advance in wheat, show-ing an inclination to concede some dam-ing an inclination to concede some damof the claims that snow protection is lacking in many sections. The strength nge to the winter wheat crop in view of cotton while to some extent based he obtained by appealing to the co on smaller receipts and a reduction of the usual "winter" crop, appears mainly due to the cheerful tone of the cotton market and the price manifested by those staples both at home and abroad.
In aggressive strength alike of demand and price, however, iron and steel mand and price, however, iron and steel suburban and elevated trains in the big of advances recorded this week is almost a roll call of that industry's products. Among the barbed wire advances noted might be mentioned barbed wire and plates, the most strength being exhibited at Western markets. HOME TREATMENT.

Epworth, S. C., Jan. 27.

Four years ago, when my last baby was born, I took cold, and have suffered greatly ever since. Two different doctors treated me for neuralgia of the womb. I sent for your book, "Home Treatment of Female Diseases", and, after studying it carefully, decided that I had inflammation of the womb, so I commenced to take Wine of Cardui and Black-Draught, I used only one bottle, but it did me more good than all the doctors and medicines, and now I am in good health.

MRS. P. A. GOOD.

Many women require special treatment, besides taking Wine of Cardul. The Wine helps them, but sometimes additional treatment is needed. These women should write the Chattanooga Medicine Co.'s Advisory Department at Chattanooga, Tenn., telling their symptoms in as few words as they can. Specialists in the treatment of "female troubles" will then give free and full advice by mail. All such letters are considered sacredly confidential. A 128page Home Treatment Book, bound in cloth, will be sent for 25c, or the same

The advance of 10 cents per keg in wire nails by the association was not caused by any especial ranced \$2 per ton and bars \$1, because of urgent demand, especially at Philasand cars, and plate mills are every where overcrowded. At the same time

the many negotiations for consolidation of interests arrest trade in some quarters and disturb it in others, causing unusual irregularity in prices. The pipe consolidation appears to stopped for the moment by opposition of one company, but the activity is greater than ever before. About 20,000 ralls have been sold at New York. In noops there is no advance and the Standard Oil company has made a contract for 3000 tons at very low figures. The demand for black sheets is beyond the capacity of mills.
